Recent Statements by the Financial Action Task Force on Money Laundering (FATF)

The purpose of this circular is to inform the reporting institutions (RIs) of the recent Public Statement by the FATF on 24 October 2014 on jurisdictions having strategic deficiencies in their anti-money laundering and counter financing of terrorism (AML/CFT) regime. These jurisdictions are either subject to the FATF's call for countermeasures; or have not made sufficient progress and not committed to an action plan to address those AML/CFT deficiencies.

2. In the statement, FATF has called upon its members and other jurisdictions to apply countermeasures against **Iran** and **the Democratic People's Republic of Korea** arising from the on-going and substantial money laundering and terrorist financing risks emanating from the jurisdictions. Other jurisdictions which have strategic deficiencies that have not made sufficient progress in addressing the deficiencies include **Algeria, Ecuador, Indonesia** and **Myanmar**, and is subject to FATF's call to consider the risks arising from the deficiencies associated with each jurisdiction.

3. In accordance with the AML/CFT Policy issued to your sector, please be advised that RIs are required to conduct enhanced customer due diligence for business relationships and transactions with any person from countries identified by the FATF as having on-going or substantial ML/TF risks, and apply countermeasures proportionate to the risk. In addition, RIs are required to conduct enhanced customer due diligence, proportionate to the risks, for business relationships and transactions with any person from countries identified by the FATF as having strategic AML/CFT deficiencies and have not made sufficient progress in addressing those deficiencies.

4. Further information on the abovementioned statements is available at FATF's website at <http://www.fatf-gafi.org>.

Please be guided accordingly.

High-risk and non-cooperative jurisdictions

FATF PUBLIC STATEMENT - 24 October 2014

Paris, 24 October 2014 - The Financial Action Task Force (FATF) is the global standard setting body for anti-money laundering and combating the financing of terrorism (AML/CFT). In order to protect the international financial system from money laundering and financing of terrorism (ML/FT) risks and to encourage greater compliance with the AML/CFT standards, the FATF identified jurisdictions that have strategic deficiencies and works with them to address those deficiencies that pose a risk to the international financial system.

Jurisdictions subject to a FATF call on its members and other jurisdictions to apply counter-measures to protect the international financial system from the on-going and substantial money laundering and terrorist financing (ML/FT) risks emanating from the jurisdictions

Iran

Democratic People's Republic of Korea (DPRK)

Jurisdictions with strategic AML/CFT deficiencies that have not made sufficient progress in addressing the deficiencies or have not committed to an action plan developed with the FATF to address the deficiencies. The FATF calls on its members to consider the risks arising from the deficiencies associated with each jurisdiction, as described below.

Algeria

Ecuador

Indonesia

Myanmar

Iran

The FATF remains particularly and exceptionally concerned about Iran's failure to address the risk of terrorist financing and the serious threat this poses to the integrity of the international financial system, despite Iran's previous engagement with the FATF and recent submission of information.

The FATF reaffirms its call on members and urges all jurisdictions to advise their financial institutions to give special attention to business relationships and transactions with Iran, including Iranian companies and financial institutions. In addition to enhanced scrutiny, the FATF reaffirms its 25 February 2009 call on its members and urges all jurisdictions to apply effective counter-measures to protect their financial sectors from money laundering and financing of terrorism (ML/FT) risks emanating from Iran. The FATF continues to urge jurisdictions to protect against correspondent relationships being used to bypass or evade counter-measures and risk mitigation practices and to take into account ML/FT risks when considering requests by Iranian financial institutions to open branches and subsidiaries in their jurisdiction. Due to the continuing terrorist financing threat emanating from Iran, jurisdictions should consider the steps already taken and possible additional safeguards or strengthen existing ones.

The FATF urges Iran to immediately and meaningfully address its AML/CFT deficiencies, in particular by criminalising terrorist financing and effectively implementing suspicious transaction reporting requirements. If Iran fails to take concrete steps to continue to improve its CFT regime, the FATF will consider calling on its members and urging all jurisdictions to strengthen counter-measures in February 2015.

Democratic People's Republic of Korea (DPRK)

Since June 2014, the DPRK has further engaged directly with the FATF and APG to discuss its AML/CFT deficiencies. The FATF urges the DPRK to continue its cooperation with the FATF and to provide a high-level political commitment to the action plan developed with the FATF.

The FATF remains concerned by the DPRK's failure to address the significant deficiencies in its anti-money laundering and combating the financing of terrorism (AML/CFT) regime and the serious threat this poses to the integrity of the international financial system. The FATF urges the DPRK to immediately and meaningfully address its AML/CFT deficiencies.

The FATF reaffirms its 25 February 2011 call on its members and urges all jurisdictions to advise their financial institutions to give special attention to business relationships and transactions with the DPRK, including DPRK companies and financial institutions. In addition to enhanced scrutiny, the FATF further calls on its members and urges all jurisdictions to apply effective counter-measures to protect their financial sectors from money laundering and financing of terrorism (ML/FT) risks emanating from the DPRK. Jurisdictions should also protect against correspondent relationships being used to bypass or evade counter-measures and risk mitigation practices, and take into account ML/FT risks when considering requests by DPRK financial institutions to open branches and subsidiaries in their jurisdiction.

Algeria

Algeria has taken steps towards improving its AML/CFT regime. However, despite Algeria's high-level political commitment to work with the FATF and MENAFATF to address its strategic AML/CFT deficiencies, Algeria has not made sufficient progress in implementing its action plan within the established timelines, and certain strategic deficiencies remain. Algeria should continue to work on implementing its action plan to address these deficiencies, including by: (1) adequately criminalising terrorist financing; (2) establishing and implementing an adequate legal framework for identifying, tracing and freezing terrorist assets and (3) adopting customer due diligence obligations in compliance with the FATF Standards. The FATF encourages Algeria to address its remaining deficiencies and continue the process of implementing its action plan.

Ecuador

Ecuador has taken steps towards improving its AML/CFT regime including by issuing AML/CFT regulations for companies supervised by Superintendence of Companies. However, despite Ecuador's high-level political commitment to work with the FATF and GAFISUD to address its strategic AML/CFT deficiencies, Ecuador has not made sufficient progress in implementing its action plan, and certain strategic deficiencies remain. Ecuador should continue to work on implementing its action plan to address these deficiencies, including by (1) establishing and implementing adequate procedures to identify and freeze terrorist assets and (2) clarifying procedures for the confiscation of funds related to money laundering. Ecuador should also continue enhancing financial sector supervision. The FATF encourages Ecuador to address its remaining deficiencies and continue the process of implementing its action plan.

Indonesia

Indonesia has taken steps towards improving its AML/CFT regime including by further implementing its terrorist asset-freezing regime. However, despite Indonesia's high-level political commitment to work with the FATF and APG to address its strategic CFT deficiencies, Indonesia has not made sufficient progress in implementing its action plan within the agreed timelines, and certain key CFT deficiencies remain regarding the development and implementation of an adequate legal framework and procedures for identifying and freezing of terrorist assets. The FATF encourages Indonesia to address its remaining deficiencies in compliance with FATF standards by fully implementing UNSCR 1267 and improving the legal framework and procedures for freezing terrorist assets.

Myanmar

Myanmar has taken steps towards improving its AML/CFT regime. However, despite Myanmar's high-level political commitment to work with the FATF and APG to address its strategic AML/CFT deficiencies, Myanmar has not made sufficient progress in implementing its action plan, and certain strategic AML/CFT deficiencies remain. Myanmar should continue to work on implementing its action plan to address these deficiencies, including by: (1) adequately criminalising terrorist financing; (2) establishing and implementing adequate procedures to identify and freeze terrorist assets; (3) further strengthening the extradition framework in relation to terrorist financing; (4) ensuring a fully operational and effectively functioning financial intelligence unit; (5) enhancing financial transparency; and (6) strengthening customer due diligence measures. The FATF encourages Myanmar to address the remaining deficiencies and continue the process of implementing its action plan.
